Process Payments on your iPhone

When you are on the road, exhibiting at trade shows, selling at a conferences you can now process credit cards on the spot, in real time, on your iPhone. Let your customers pay with Visa, Mastercard, & PayPal.

No Expensive Hardware

With your iPhone in your pocket, you are ready to accept payment anywhere, anytime. No extra hardware to rent pack of forget.

Real Time Processing

No more dealing with declined cards after the customer has gone. You'll instantly know if a card is approved.

Supported Payment Gateways

Most gateways are supported including: PayPal Pro, Moneris, Beanstream, Authorize.net, SecurePay, Internet Secure, and more. Click here for a complete list of [Payment Gateways](#)

Security

BigTurns processing is PCI compliant. Credit Card Terminal transmits credit card information directly through Payment Gateway. The credit card information is not communicated to our servers. All transactions are protected with SSL encryption. Credit Card Terminal does not store credit card numbers after the transmission is complete.

Pricing

These rates detail all charges and fees for processing credit cards on your iPhone through PayPal Payments Pro. Transaction rates are special rates for BigTurns customers.

Free (reg. \$200)	\$39 /month	\$35 /month	30¢ + 2.2%
Set Up	BigTurns Platform	PayPal Pro	Per Transaction
